

BRECKENRIDGE POOL EXTENDED

Breckenridge, Tex., July 6.—The Breckenridge pool has been extended six miles southwest of town by the Pratt No. 1 of the Stephens Oil syndicate which struck the gray lime formation at a depth of 3243 feet. There are 100 feet of oil in the pool and evidence of much gas. The well will be completed just as soon as storage tanks and pipe line connections can be made.

The best recent completion in the North Breckenridge pool is the W. C. Goodwin well of Walker & Perkins. This well has just increased its flow again and is now doing better than 400 barrels of high grade crude oil daily.

SCURRY COUNTY OIL SHOWING. Snyder, Tex., July 6.—Very promising showings have been found in Scurry county in the oil test being drilled near Dunn by J. T. T. Harte and associates. Some time ago oil showings were encountered in this vicinity at the same level at which the Dunn well encountered the pay. Every attempt is being made to save and develop the new find.

Send annual interest on Savings accounts will be due July 1st. Depositors are requested to present pass books for credit.

Dominion Co. Strikes Fine Artesian Flow

Pyote, Tex., July 6.—The Dominion company struck a stream of artesian water in its Dominion river well, eight miles southwest of Pyote, last week which, according to estimates, is running 1500 gallons per minute. It has been contended by some geologists that no artesian water would be struck east of the river and the striking of this stream in such a quantity was a surprise to all.

The water is rather strong with sulphur, but is claimed to be fine for irrigation purposes.

This well is at the upper end of what is known as the big valley of the Peace river, only a few hundred feet from the headwaters of the irrigation ditch where the water for irrigation is taken out of the Peace river. The same oil concern, added in its Dominion valley well July 4. The valley well is 75 miles down the river from the river well and about seven miles south of Pyote.

May Solve Water Question. In case the same stream is struck in the valley well it is expected to solve the water question for an immense irrigable territory. The Rio Grande valley has about 25,000 acres of fine alluvial soil, but heretofore has been handicapped by the water in the Peace river falling at critical times. The stream was struck at 734 feet.

The Dominion oil company's geologist stated it was expected to strike the oil strata at 2100 feet in the River well and at about 2500 in the valley well. Arrangements are being made to case off the water in the River well.

Secrets Of The Movies Revealed

In there an average, bright, weight and age for moving picture actresses who become stars? While there are exceptions to all rules, a comparison of 10 of the most popular women stars shows that the tendency is toward the petite or medium type. The average weight is about 125 pounds, the height of the six being 5'2", 5'3", 5'4", 5'5", 5'6" and 5'7". Three of the stars are under 20 and the others are 22, 23 and 24 years old. So that we might say that the present day ideal movie star in addition to being beautiful is about 20 years old, is five feet, five inches tall and weighs 125 pounds. Can you qualify?

Q. Is Cleo Hildely in the movies now?

A. No, she has a pair of twins now three years which, as you can imagine keep her quite busy.

Q. What moving picture actress landed in pictures because she had a pug nose and then succeeded in spite of it?

A. Josephine Hill did it. She recently appeared in support of Frank Mayo.

Q. To whom is Nigel Burdett married?

A. He married Helen Lee. She is about to make her screen debut as Helen Lee Burdett.

Q. What was Wanda Hawley's maiden name?

A. Wanda Pettit.

Since the camera photographs everything as either white, black or gray why do actors not dress in these colors exclusively and why are these colors not also used exclusively in the sets? Every movie fan will be interested in the answer to this question which will appear in this department tomorrow—Copyright, 1920, by Thompson Feature Service.

\$7,000,000 OIL CO. IS FORMED

Dallas, Tex., July 6.—The organization of a \$7,000,000 oil concern, the Artza Petroleum company, has been announced. R. B. Stichter, formerly president of the Eastland company, and vice president of the Security National bank, of Dallas, has been elected president of the new concern. The Eastland Oil and Refining company and the Republic Oil and Refining company have been absorbed in the new concern. In the near future the Southwestern Oil corporation will be absorbed. It is believed the new company's capital will be \$2,000,000 shares of no par value, 500,000 to be issued at once. Two million dollars' worth of notes are to be issued as additional working capital. The shares have a book value of \$8.60.

In connection with the refining plants of the Eastland company and the Republic the new concern will erect a topping plant and will engage in the distribution of gasoline and oil through a series of filling stations to be located in many of Texas' leading cities, among which are Dallas, Port Worth, El Paso and San Antonio.

News Brevities

Train Bulletin. All afternoon and night trains were reported on time Tuesday.

H. H. Hendrick, Auditor, Tax Advisor. 210 First National Bank Bldg.

Visit Cloudcroft. Mrs. Kay Wilson and Miss Irene Robinson of the chamber of commerce spent Sunday and Monday at Cloudcroft.

Trouble. Avoid trouble. Leave baggage checks at Longwell's or telephone No. 1.

First Concert Gets Big Crowd; Parks Jammed

The people of El Paso packed their motor cars to the city, with Washington park in the heart of the city, to the amphitheater who went to the auto club's picnic at West Valley. In fact, to the other cool spots along the river, up town parks and their crowds. Cleveland square had the biggest aggregation in its history Monday night when the municipal band played its first concert of the season.

People, old, young and of both sexes filled every bench in this park and there was a big run over on the grass and the arbors around the square. The overflow went to Cleveland square. There was a fringe of automobile lighters around it all to say nothing of the crowded perches of neighborhood residences and hotels.

The band was pronounced in fine playing condition at noon Monday by director P. J. Gustaf, when it held its final rehearsal at the chamber of commerce. Every number on the program brought prolonged cheering.

The next concert will be given Friday night and after this week on Tuesday and Friday night.

The number of El Pasoans who took to the open Monday was estimated at 20,000. The chamber of commerce Tuesday. This includes those who went motoring, who went to the park, who went to dinner and who stayed up and down the valley.

An average of 5000 persons have been visiting Washington park every Sunday since the hot weather started according to alderman Martin Sweeney.

THIS WEEK'S BEAUTY HELP

It is not necessary to shampoo your hair so frequently if it is so tired and properly cleaned each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of castor oil, which can be obtained from any druggist's, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft, fluffiness that makes it seem very heavy.—Adv.

We Want More Partners!

We have always wanted to have the maximum number of our customers interested financially in our enterprise. We have always realized what a solid basic industry a well patronized public utility is, and therefore what an ideal investment its securities are.

But up to now while the security was good (as good as it is now) the rates for money were such that we could not offer to our customers as attractive a return as we thought they wanted.

But Today We Can Do This.

We can offer to our customers a direct obligation of the Company yielding 8% which is amply secured, and which comes ahead of all the Company's stock. The Stockholders (the owners of the property) get nothing until these notes are satisfied in full.

We feel, therefore, that we can make a strong bid for our customers to join us financially and benefit themselves by doing so.

If you will telephone or call at our office, we shall be glad to give as much detail information as you desire.

OUR OFFER

5 YEAR 7% COUPON GOLD NOTES SIZES \$100, \$500 AND \$1,000

Price 96 and Interest to Yield 8%.

Notes in limited amounts may, if desired, be purchased by paying 10% with order and the balance in nine monthly amounts, we retaining note until final payment is made. Interest at 6% will be allowed on installments paid. Amounts paid may be withdrawn at any time before final payment is made, in which case 4% interest will be allowed.
